

2018

INVESTMENT PROJECTS

TOMSK REGION

Investment Projects of Tomsk Region in the Mining Sector

1

The project for commercial development of the Yuzhno-Aleksandrovsky and Kuskovsko- Shirayayevsky areas of the Tuganskoye ilmenite-zirconium placer deposit in the territory of Tomsk Region

Design and construction of mining-and-processing integrated works for producing zirconium, ilmenite, rutile-leucoxene concentrates and quartz sand for the glass industry

Number of jobs created - 704

Implementation period of the investment project : 2013-2022

Estimated cost of the project : 13, 600.00 million rubles

Project implementation territory : Tomsk district, Malinovka village

Investor, project initiator : AO Tugansk Ore Mining and Processing Enterprise
Ilmenite

2

Drilling wells in the Yuzhno-Pudinsky license area

Oil production– 2, 802.1 thousand tons until 2048 , including 1, 644.2 thousand tons until 2024

Number of jobs created - 31

Implementation period of the investment project : 2013-2042

Estimated cost of the project : 5,627.30 million rubles

Project implementation territory : Parabelsky district

Investor, project initiator : OOO Gazpromneft - Vostok

Investment Projects of Tomsk Region in the Mining Sector

3

Development of technologies for exploration of potentially productive formations in the pre-Jurassic deposits in Tomsk Region

Development of technologies for exploration of potentially productive formations in the pre-Jurassic deposits in Tomsk Region.

Implementation period of the investment project : 2017-2022

Number of jobs created - 50

Estimated cost of the project : 1, 289.00 million rubles

Project implementation territory : Tomsk Region

Investor, project initiator : OOO Gazpromneft - Vostok

4

Development of hydrocarbon production in the territory of Tomsk Region

Annual hydrocarbon production: oil – 1,979 thousand tons, gas- 684 million cubic meters, stable gas condensate - 286 thousand tons, technical propane butane mixture - 561 thousand tons

Implementation period of the investment project : 2012-2032

Number of jobs created - 494

Estimated cost of the project : 93, 974.00 million rubles

Project implementation territory : Tomsk Region

Investor, project initiator : OAO Tomskgazprom

Investment projects of Tomsk Region in the Timber Processing and Wood Products Manufacturing Sector

1

Creation of forestry industrial park in Asino town

Creation of a large forestry industrial complex (more than 10 main and auxiliary sawn wood production facilities (220 thousand cubic meters per year), plywood veneer (100 thousand cubic meters per year) and plywood, wood boards (MDF- 200 thousand cubic meters per year, chipboard - 300 thousand cubic meters per year), furniture, floor panels, as well as logging units, power plants, infrastructure) with timber processing centers located in Asino town and Bely Yar village

Number of jobs created — 3, 000

Implementation period of the investment project : 2008-2022

Estimated cost of the project : 50, 000.00 million rubles

Project implementation territory

Timber processing: Asinovskiy and Teguldetskiy districts

Timber harvesting: Verkhneketskiy, Bakcharskiy and Teguldetskiy districts

Investor, project initiator

AO Ruskitinvest

2

Creation of timber harvesting infrastructure for developing hard-to-reach forest areas in Aleksandrovskiy and Kargasokskiy districts of Tomsk Region. Creation of integrated timber processing facilities in Krasny Yar village in Krivosheinskiy district of Tomsk Region

Creation of timber harvesting infrastructure for development of hard-to-reach forest areas in Aleksandrovskiy and Kargasokskiy districts of Tomsk Region. Creation of integrated timber processing facilities in Krasny Yar village in Krivosheinskiy district of Tomsk Region

Number of jobs created – 261

Implementation period of the investment project : 2017-2023

Estimated cost of the project : 1, 067.70 million rubles

Project implementation territory

Aleksandrovskiy, Kargasokskiy, Krivosheinskiy districts of Tomsk Region

Investor, project initiator

OOO Les-Export

Investment Projects of Tomsk Region in the Light Industry

1 Development of flax cultivation, modernization of flax advanced processing

Production of flax biomats and flax-fiber bulky insulating material – 1, 100 thousand square meters per year

Number of jobs created - 10

Implementation period of the investment project : 2014-2022

Estimated cost of the project : 127.90 million rubles

Project implementation territory : Asino town, Asinovsky district

Investor, project initiator : OOO Tomsky len

Investment Projects of Tomsk Region in the Chemical Production Sector

1

Development of polymer production by OOO Tomskneftekhim

Production of high pressure polyethylene – 140 thousand tons per year, polyethylene - 271 thousand tons per year

Implementation period of the investment project : 2012-2020

Number of jobs created – 276

Estimated cost of the project : 9, 705.50 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OOO Tomskneftekhim, PAO SIBUR Holding

2

Construction of biaxially oriented polypropylene film production facilities on the base of Tomskneftekhim with a capacity of 38 thousand tons

Production of biaxially oriented polypropylene film - 38 thousand tons per year

Implementation period of the investment project : 2012-2019

Number of jobs created — 103

Estimated cost of the project : 2, 716.36 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OOO Biaxplen-T

Investment Projects of Tomsk Region in the Chemical Production Sector

Construction of new facilities designed for production of technical gases and compressed air

3

Construction of an air separation plant, separation of air and nitrogen compression, storage systems, gasification and output of cryogenic products ; utility lines

Implementation period of the investment project : 2014-2018

Number of jobs created - 35

Estimated cost of the project : 1, 574.88 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OOO Kriogenmash-Gaz

Setting up pigment titanium dioxide production based on the fluoride technology

4

Setting up pigment titanium dioxide production – 10, 000 thousand tons per year

Implementation period of the investment project : 2016-2020

Number of jobs created - 45

Estimated cost of the project : 796.76 million rubles

Project implementation territory : ZATO Seversk

Investor, project initiator : OOO SHK

Investment Projects of Tomsk Region in the Chemical Sector

5

Creation of electrolytes production for chemical current sources

Creation of electrolyte production based on lithium hexafluorophosphate for lithium-ion batteries (LIB) - 100 tons/year

Number of jobs created - 6

Implementation period of the investment project : 2016-2019

Estimated cost of the project : 98.23 million rubles

Project implementation territory : ZATO Seversk

Project initiator, Investor : OOO SHK

Investment Projects of Tomsk Region in the Pharmaceutical Sector

1

Construction of an industrial warehouse complex to organize of high-tech production of pharmaceutical gelatin for capsules

Production of hard gelatine capsules–
6 million pieces per year. Industrial warehouse complex
with an area of 10,000 square meters

Implementation period of the
investment project : 2010-2021

Number of jobs creates - 64

Estimated cost of the project : 800.00 million rubles

Project implementation territory

: Tomsk district, Kaltai village

Project initiator, investor

: OOO Artlife

Investment Projects of Tomsk Region in the Area of Metalworking

1

Creation of high-tech production of a range of import-substituting cutting tools, including solid carbide with wear-resistant coatings for machining light alloys, titanium alloys, heat-resistant and stainless steels

Acquisition of new equipment and real estate in order to increase the production of traditional metal-cutting tools and mastering the production of new high-tech positions

Implementation period of the investment project : 2015-2019

Number of jobs created - 31

Estimated cost of the project : 150.70 million rubles

Project implementation territory

: Tomsk, Loskutovo village

Project initiator, investor

: OOO Tomsky Instrumentalny Zavod

Investment Projects of Tomsk Region in the Area of Machinery and Equipment Production

1

Creation and production modernization of import-substituting products on the basis of the Tomsk Vakhrushev Electromechanical Plant (OAO "TEMZ")

Creating on the basis of OAO "TEMZ" production of anti-surge and control valves through the reconstruction of the building and the acquisition of technological equipment

Number of jobs created - 35

Implementation period of the investment project : 2016-2022

Estimated cost of the project 1, 500.00 million rubles

Project implementation territory : Tomsk

Project initiator , investor :
OOO Gazprom investproect, OAO TEMZ,
OOO Tomskie Tehnologii Mashinostroeniya

Investment Projects of Tomsk Region in the Area of Production of Electrical, Electronic and Optical Equipment

1

Production modernization of cables and wires in rubber insulation

Construction of the production building and the acquisition of additional equipment for the production of cable-wired products in rubber insulation, improving the quality of products and expanding the range

Implementation period of the investment project : 2017-2019

Number of jobs created - 6

Estimated cost of the project : 549.30 million rubles

Project implementation territory : Tomsk

Investor, project initiator : AO Sibkabel

2

Construction of a workshop for the production of electronics by AO TOMZEL

Development and exploration of the flow production of electronic control systems for explosion-proof electric actuators. Creating a closed cycle of production of electric actuators

Implemented period of the investment project : 2014-2018

Number of jobs created - 25

Estimated cost of the project : 226.66 million rubles

Project implementation territory : Tomsk

Investor, project initiator : AO TOMZEL

Investment Projects of Tomsk Region in the Area of Electrical, Electronic and Optical Equipment Production

3

Modernization and technological development of AO NPF Mikran (I turn)

Establishment of a plant in electronic equipment production. Production of microwave devices and radio relay communication systems

Number of jobs created - 1,088

Implementation period of the investment project : 2010-2020

Estimated cost of the project : 1,369.62 million rubles

Project implementation territory : Tomsk

Investor, project initiator : AO NPF Mikran

Investment projects of Tomsk Region in the Area of the Petroleum Products and Nuclear Materials Production

1

Construction of a fabrication module and a launch module for refracting dense mixed uranium-plutonium fuel for fast neutron reactors

Production of dense mixed uranium-plutonium fuel: by fabrication - 14 tons / year, refabrication - 5 tons / year

Number of jobs created - 300

Implementation period of the investment project : 2013-2020

Estimated cost of the project : 20, 765.99 million rubles

Project implementation territory : ZATO Seversk

Investor, project initiator : AO SHK , GK Rosatom

2

Construction of a pilot demonstration unit with a fast neutron reactor with lead coolant (BREST-OD-300)

Development of a new generation of nuclear power technologies, creation of a pilot model of an industrial reactor on a lead coolant with a stationary nuclear fuel cycle. Electric power - 300 MW / year

Number of jobs created - 650

Implementation period of the investment project : 2013-2020

Estimated cost of the project : 17, 837.58 million rubles

Project implementation territory : ZATO Seversk

Investor, project initiator : AO SHK, GK Rosatom

Investment Projects of Tomsk Region in the Area of the Petroleum Products and Nuclear Materials Production

3

Construction of a module for reprocessing of the spent nuclear fuel from fast neutron reactors

Production of mixed oxides of uranium and plutonium for refabrication - 5 tons / year

Implementation period of the investment project : 2014-2020

Number of jobs created - 200

Estimated cost of the project : 19, 574.00 million rubles

Project implementation territory

: ZATO Seversk

Investor, project initiator

: AO SHK, GK Rosatom

4

Creation of production of commercially attractive fluorine-containing products from secondary industrial raw materials

Creation of domestic technology for the re-conversion of depleted uranium hexafluoride.
Production volume 6 thousand tons / year for hydrogen fluoride

Implementation period of the investment project : 2016-2022

Number of jobs created - 600

Estimated cost of the project : 3, 900 million rubles

Project implementation territory

: ZATO Seversk

Investor, project initiator

: AO SHK, GK Rosatom

Investment Projects of Tomsk Region in the Sector of Production and Distribution of Electricity, Gas and Water

1

Increasing the level of development of gas supply and gasification in Tomsk Region

Supply of gas to 33,245 households and 430 legal entities in 14 municipalities through the construction of 1,704.60 km of gas pipelines, 3 gas distribution stations, a complex for liquefying natural gas (CLNG) and 5 stations for receiving, storing and regasification SRR

Implementation period of the investment project : 2015-2020

Estimated cost of the project : 13, 175.55 million rubles

Project implementation territory : Tomsk region populated areas

Investor, project initiator : Tomsk Region Administration

Investment Projects of Tomsk Region in the Agriculture and Forestry Sectors

1

Expansion of dairy farm production capacity in Pudovka village

Increase milk production up to 10 790 tons / year

Number of jobs created - 10

Implementation period of the investment project : 2018-2024

Estimated cost of the project : 392.80 million rubles

Project implementation territory : Krivosheinsky district, Pudovka village

Investor, project initiator : SPK Belostok

2

Reconstruction of a dairy farm for 1,850 animals in Turuntaevo village

Milk - 13,500 tons / year, meat of bovine

Number of jobs created - 80

Implementation period of the investment project : 2015-2023

Estimated cost of the project : 894.80 million rubles

Project implementation territory : Tomsk district, Turuntaevo village

Investor, project initiator : OOO Spas

3

Reconstruction of a dairy farm for 1,100 animals

Milk production - 7,000 tons / year

Number of jobs created - 120

Implementation period of the investment project : 2016-2019

Estimated cost of the project : 484.00 million rubles

Project implementation territory : Tomsk district, Rybalovo village, Karbyshevo village

Investor, project initiator : OOO SPK Mezheninovskiy

Investment Projects of Tomsk Region in the Agriculture and Forestry Sectors

4

Organization of a modern modular production complex for fattening, slaughter and primary processing of cattle

Construction of a slaughter and meat processing plant that meets international standards and produces high-quality products.
Cattle meat - 2,880 tons/year, pork meat - 9,500 tons/year

Number of jobs created - 55

Implementation period of the investment project : 2014-2022

Estimated cost of the project : 383.00 million rubles

Project implementation territory : Shegarsky district, Kargala village

Investor, project initiator : SPPK Kargalinsky

5

Construction of a livestock complex of meat production "Marble farm" for 1000 head of breeding stock

The production of beef meat - 320 tons / year, the volume of breeding sales will be 380 head heifers / year

Number of jobs created - 8

Implementation period of the investment project : 2016-2018

Estimated cost of the project : 200.00 million rubles

Project implementation territory : Pervomaisky district, Berezovka village

Investor, project initiator : OOO Berezovskaya ferma

6

Construction of the livestock complex "Dairy Farm" for 2,600 head of dairy herd

Milk production – 22, 500 tons/year, cattle meat

Number of jobs created - 240

Implementation period of the investment project : 2019-2024

Estimated cost of the project : 3, 257.00 million rubles

Project implementation territory : Tomsk district , Mazalovo village

Investor, project initiator : OOO Mazalovskaya ferma

Investment Projects of Tomsk Region in the Agriculture and Forestry Sectors

7

Construction of a dairy complex for 1200 head of dairy herd near Kuldorsk village

Number of jobs created - 85	Implementation period of the investment project	:	2018-2020
	Estimated cost of the project	:	752.60 million rubles
Project implementation territory	:	Pervomaisky district	
Investor, project initiator	:	OOO Molochnaya ferma	

8

Organization of the commercial grain production and feed for livestock farms

Commercial grain production - 52 thousand tons / year and feed - 92 thousand tons / year	Implementation period of the investment project	:	2016-2021
Number of jobs created - 148	Estimated cost of the project	:	1, 047.60 million rubles
Project implementation territory	:	Pervomaisky district, Kuyanovo village	
Investor, project initiator	:	OOO APK Pervomaisky	

9

Organization of export-oriented flax processing

Organic flax fiber production - 2 thousand tons / year and organic flaxseed oil - 750 tons / year	Implementation period of the investment project	:	2018-2021
Number of jobs created - 20	Estimated cost of the project	:	572.40 million rubles
Project implementation territory	:	Pervomaisky district	
Investor, project initiator	:	OOO APK Pervomaisky	

Investment Projects of Tomsk Region in Fish Farming Sector

1

Construction of fish farming and reproduction complex "Aquabiocenter of Tomsk Region"

Reproduction of fish and compensation for damage to the fish reserves of the Ob River by:

- creation of brood stock of sturgeon (annually produced amount of 1 million pieces) and whitefish (annually released amount of 3 million pieces)

- organization of the selection point of caviar on whitefish and sturgeon spawning grounds of the Tomsk region and the creation of brood stock of Siberian sturgeon, coregonus peled, muksun, sheefish, sterlet for the annual production of caviar with its subsequent incubation, breeding of larvae and stocking of reservoirs of the Tomsk region

Implementation period of the investment project : 2014-2023

Estimated cost of the project : 704.20 million rubles

Number of jobs created - 89

Project implementation territory : Tomsk district

Investor, project initiator : Tomsk Region Department of Hunting and Fisheries

Investment Projects of Tomsk Region in Food Production Sector

1

Technical re-equipment and production modernization

Beer production - 10.0 million dal/year, non-alcoholic beverages - 4.0 million dal/year	Implementation period of the investment project	:	2016-2023
Number of jobs created - 300	Estimated cost of the project	:	800.00 million rubles
Project implementation territory	:	Tomsk region, Kozhevnikovo village	
Investor, project initiator	:	OOO Pivovarnya Kozhevnikovo	

2

Technology improvement , technical re-equipment, production modernization and development of the market for beer and non-alcoholic beverages

Beer production - 19.0 million dal/ year, non-alcoholic beverages - 4.1 million dal/ year	Implementation period of the investment project	:	2011-2020
Number of jobs created - 84	Estimated cost of the project	:	1, 470.00 million rubles
Project implementation territory	:	Tomsk	
Investor, project initiator	:	OAO Tomskoye pivo	

3

OOO Compania Eskimos current production modernization within the framework of the implementation of the integrated development program "Quality of Business" (II turn)

Upgrading of production capacity in order to increase the production of ice cream by 1.9 times	Implementation period of the investment project	:	2014 - 2020
Number of jobs created - 14	Estimated cost of the project	:	63.11 million rubles
Project implementation territory	:	Tomsk Region, Tomsk	
Investor, project initiator	:	OOO Compania Eskimos	

Investment Projects of Tomsk Region in the Food Production Sector

4

Setting up the production of food products, BAA raw materials and cosmetics on the base of integrated processing of berries and pinenuts

Setting up the production of fruit and berry puree, juice, berry oil, cedar oil, pinenut milk and cream. Launching the production line for processing fruit and berries with a design processing capacity up to 2,000 tons of berries per year and up to 100 tons of pinenut products per year

Number of jobs created - 46

Implementation period of the investment project : 2014-2019

Estimated cost of the project : 115.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OOO TPK Sava

5

Development of production of natural unique fruit and fatty fillings for the confectionery industry

Creation of large-scale production and bringing to the market of unique fruit and berry fillers (fillings), including import-substituting ones, for the confectionery and dairy industries

Number of jobs created - 93

Implementation period of the investment project : 2013-2018

Estimated cost of the project : 39.71 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OOO TPK Sava

Investment Projects of Tomsk Region in the Housing Construction Sector

1

Construction of the residential district Yuzhnye Vorota

Construction of affordable and comfortable housing – 541.4 thousand square meters

Implementation period of the investment project : 2015-2019

Estimated cost of the project : 23, 800.00 million rubles

Project implementation territory : Tomsk Region, Zonalnaya Stantsia village

Investor, project initiator : OAO TDSK

2

Development of Tomsk eastern part territory

Integrated development of Tomsk eastern part territory in which poor condition apartment buildings slated for demolition are located. The apartment buildings are planned to be demolished and reconstructed according to the municipal targeted programs. Newly constructed housing - 2 million square meters per 100 thousand people

Implementation period of the investment project : 2008-2027

Estimated cost of the project : 100, 000.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OAO TDSK

Investment Projects of Tomsk Region in the Housing Construction Sector

3

Construction of the low-rise housing estate Severny

Construction of affordable and comfortable housing as well as consumer services (2 kindergartens, 1 school, children's playgrounds and sports grounds) – 60.9 thousand square meters

Implementation period of the investment project : 2015-2018

Estimated cost of the project : 2, 639.00 million rubles

Project implementation territory : Tomsk district, Kislovka village, housing estate Severny

Investor, project initiator : OOO Karyeroupravlenie Group of Companies

4

Construction of the residential district Radonezhsky

Construction of affordable and comfortable housing as well as consumer services - 260 thousand square meters

Implementation period of the investment project : 2016-2020

Estimated cost of the project : 215.92 million rubles.

Project implementation territory : Tomsk

Investor, project initiator : OAO TDSK

Investment projects of Tomsk Region in the Housing Construction Sector

5

Construction of the residential district Yasny in Seversk

Construction of affordable and comfortable housing as well as consumer services - 80 thousand square meters

Implementation period of the investment project : 2015-2019

Estimated cost of the project : 3, 525.92 million rubles

Project implementation territory

: ZATO Seversk

Investor, project initiator

: OAO TDSK

Investment Projects of Tomsk Region

Creation of advanced economic growth zone "Tomskie Naberezhnye"

1

Creation of an administrative and business zone, university campus, recreation zone including the historical and cultural center "Tatarskaya Sloboda" for the purpose to arrange comfort, urban and educational environment in the central part of Tomsk city

Gross construction area -420 ha

Implementation period of the investment project : 2013-2029

Estimated cost of the project : 83, 153.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator : Tomsk Region Administration,
Tomsk City Administration,
Private Investors

Development of Technology-Innovative Special Economic Zone (TISEZ)

2

Construction of the administrative and business , engineering and exhibition centers, sport objects and health complex, board room, hotel. Development of public and residential area, construction of resident's objects

Gross construction area - 269 ha
Number of residents by 2024 - 116
Number of jobs created by 2024 - 2,749

Implementation period of the investment project : 2006-2054

Estimated cost of the project : 58, 191.32 million rubles

Project implementation territory : Tomsk

Investor, project initiator : AO O EZ TVT Tomsk , Tomsk Region Administration,
Tomsk City Administration,
Private Investors

Infrastructure Projects of Tomsk Region

3

Creation and development of the Industrial Park in Tomsk

Creation of two industrial sites with a total area of 138 ha for accommodating the plants of food, metalworking, machine building, chemical industries, construction material production

Number of jobs created - 452

Implementation period of the investment project : 2013-2064

Estimated cost of the project : 5, 190.60 million rubles

Project implementation territory : Tomsk

Project implementation territory : Tomsk Region Administration, Tomsk City Administration, residents of the Industrial Park, Private Investors

Investment Projects of Tomsk Region in the Transport and Communication Sector

1

Reconstruction of the Kamaevka - Asino – Pervomaiskoye road at the 0 km – 53 km area in Tomsk Region

Reconstruction of the 0 km – 53 km area of the Kamaevka – Asino – Pervomaiskoye road of technical category III with two traffic lines and a travel width of 7.0 m, included Tomsk – Asino road

Implementation period of the investment project : 2013-2026

Estimated cost of the project : 4, 027.00 million rubles

Project implementation territory : Asinovsky, Tomsky district

Investor, project initiator : OGKU Tomskavtodor (Regional Government Agency), Department of Transport, Road Maintenance and Communications of Tomsk Region

2

Construction of an entrance to the terminal of Bogashevo Airport with the loading and parking grounds within the 19 km area of 20,185 km Tomsk-Airport road

Expansion of the entrance to Bogashevo Airport with loading and parking grounds for 360 car parking spaces

Implementation period of the investment project : 2013-2019

Estimated cost of the project : 367.30 million rubles

Investor, project initiator : Tomsk

Investor, project initiator : OGKU Tomskavtodor (Regional Government Agency), Department of Transport, Road Maintenance and Communications of Tomsk Region

Investment Projects of Tomsk Region in the Transport and Communication Sector

3

Construction and reconstruction of the Perm – Ivdel - Khanty-Mansyisk - Surgut – Nizhnevartovsk - Tomsk road within the territory of Tomsk Region

Reconstruction of the Mogilny Mys –Parabel-Kargasok road at 30 km – 45 km area in the Kolpashevsky district of Tomsk Region

There is DED for the following areas:

- 123-143 km in Parabelsky district;
- 65-80 km in Kolpashevsky and Parabelsky districts

Implementation period of the investment project : 2008-2030

Estimated cost of the project : 57, 911.52 million rubles

Project implementation territory

- Kolpashevsky, Parabelsky, Kargasoksky, Aleksandrovsky Districts

Investor, project initiator

- OGKU Tomskavtodor (Regional Government Agency), Department of Transport, Road Maintenance and Communications of Tomsk Region

4

Construction of the Tomsk-Taiga road

Construction of 80 km Tomsk-Taiga road within the territory of Tomsk Region is to provide Tomsk Region with the access to a large transport hub on the Trans-Siberian Railway

Number of jobs created – 2, 000

Implementation period of the investment project : 2017-2025 гг.

Estimated cost of the project : 6, 778.00 million rubles

Project implementation territory

- Tomsk and Kemerovo Regions

Investor, project initiator

- OGKU Tomskavtodor , GKU KO Direktsia Avtodorog "Kuzbassa"

Investment Projects of Tomsk Region in the Transport and Communication Sector

5

Construction of the road interchange with the Taiga-Tomsk railway over 76 km area

Construction of the road interchange of 4,577 km long
(included interchange ramps)

Number of jobs created - 300

Implementation period of the
investment project : 2017-2019

Estimated cost of the project : 1, 865.24 million
rubles

Project implementation territory : Tomsk

Investor, project initiator : Construction Department of Tomsk City Administration

Investment Projects of Tomsk Region in Tourism and Recreation

1 A year-round thematic nature-entertaining park "Okolitsa" creation

Park creation for the region's people recreation, tourism events venue, accommodation and food facilities creation in the park, and other cultural and entertainment institutions

The investment project implementation period : 2013-2019

Number of jobs created - 130

Estimated cost of the project : 594.00 million rubles

Project implementation territory : Tomsk district, Zorkaltsevo village

Investor, project initiator

- OOO International festival-competition "Ax Holiday",
- Regional State Autonomous Institution Center for Business Cooperation and Recreation "Tom", NAUK Rural Sports and Leisure Complex

2 Academpark – center of sports and family leisure

New facilities construction:
- Ice palace, ski jumps complex, hockey court, snowboard park, extreme park, service infrastructure facilities
- Transport, engineering and business infrastructure development

The investment project implementation period : 2013-2029

The number of jobs created - more than 100

Estimated cost of the project : 990.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator

- Tomsk Region Administration,
- Tomsk City Administration

Investment Projects of Tomsk Region in Tourism and Recreation

3

Seversk nature park reconstruction

Creation of a modern recreation area on the basis of Seversk nature park with comfortable conditions for a proper city's residents and guests cultural rest. Amusement park modernization, zoo enclosure reconstruction, park landscape reconstruction

The investment project implementation period : 2018-2023

Estimated cost of the project : 2, 196.70 million rubles

Project implementation territory : ZATO Seversk

Investor, project initiator : ZATO Seversk Administration

Investment Projects of Tomsk Region in the Educational Sector and Health Services Sector

Construction of the kindergartens in Tomsk Region territory

1

Construction, equipment and operation of 15 buildings designed for preschool educational institutions placement in 9 municipalities territory of Tomsk Region, with a total number of places-2, 550

Number of jobs created-900

The investment project implementation period : 2013-2020

Estimated cost of the project : 2, 683.00 million rubles

Project implementation territory

: Tomsk, ZATO Seversk, Strezhevoy town, Aleksandrovsy, Verkhneketsky, Kargasoksky, Kozhevnikovsky, Pervomaisky, Tomsk districts

Investor, project initiator

: OAO TDSK using the mechanism of public-private partnership

Surgery building construction for 120 beds with a polyclinic for 200 visits per shift Regional Public Health Institution Tomsk Regional Oncology Center

2

Surgery building construction to provide high-tech care for cancer patients

Number of jobs created-70

The investment project implementation period : 2018-2021

Estimated cost of the project : 3, 830.00 million rubles

Project implementation territory

: Tomsk

Investor, project initiator

: Tomsk Region Administration

Investment Projects of Tomsk Region in the Educational Sector and Health Services Sector

The center of positron emission tomography construction

Population meeting requirements of the of Tomsk Region in medical services of positron emission tomography combined with x-ray computed tomography

The investment project implementation period : 2017-2019

Number of jobs created -40

Estimated cost of the project : 500.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator : Tomsk Region Administration, OOO LDTS MIBS

Schools construction, restoration and equipment in Tomsk Region

Construction, restoration and equipment of educational institutions (schools) on the territory of municipalities of Tomsk Region, with a total number of seats – 14, 731

The investment project implementation period : 2016-2025

Number of jobs created – 1, 500

Estimated cost of the project : 15, 300.00 million rubles

Project implementation territory : Aleksandrovsky, Asinovsky, Kolpashevsky, Bakcharsky, Kargasoksky, Krivosheinsky, Pervomaisky, Teguldetsky, Tomsky, Chainsky, Shegarsky districts and Tomsk

Investor, project initiator : Tomsk Region Administration

Investment Projects of Tomsk Region in Ecology and Solid Waste Processing Field

1

Construction of toxic industrial wastes ground, Tomsk

Creation the capacities on the ground to receive toxic industrial wastes up to 30 thousand tons per year in order to prevent environmental damage in the territory amounting to 13 million rubles per year

The investment project implementation period : 1992-2019

Number of jobs created - 104

Estimated cost of the project : 1, 447.86 million rubles

Project implementation territory : Tomsk district

Investor, project initiator : OAO Poligon

Investment Projects of Tomsk Region to Be Implemented in Industrial Park "Tomsk"

1

Construction of the plant in reagents production (stage 2). Plant in reagents production. KBR-50 installation

Plant construction for the reagents production for the oil and gas industry drilling fluids - low-viscosity oil, 30 thousand tons per year.KBR-50 installation

The investment project implementation period : 2017-2023

Number of jobs created - 15

Estimated cost of the project : 300.00 million rubles

Project implementation territory : Tomsk, Industrial Park "Tomsk", platform "Severnaya"

Investor, project initiator : OOO NPO Reasib

2

Rolled section steel production (building bar)

Mini-enterprise creation for the production of high-quality building bar A 400 (AIII) st35GS, diameter from 6 to 16 mm

The investment project implementation period : 2017-2021

Number of jobs created-15

Estimated cost of the project : 29.50 million rubles

Project implementation territory : Tomsk, Industrial Park "Tomsk", platform "Severnaya"

Investor, project initiator : OOO Metallurg

Investment Projects of Tomsk Region To Be Implemented in Industrial Park "Tomsk"

Metalworks production for the construction industry

Capacities modernization for the metalworks production for the construction industry (increase in the production volume, manufactured structures range expansion, the introduction of modern technologies)

Number of jobs created-30

The investment project implementation period : 2017-2021

Estimated cost of the project : 40.00 million rubles

Project implementation territory : Tomsk, Industrial Park "Tomsk", platform "Severnaya"

Investor, project initiator : AO Sibstalkonstruksia

Protein products development, production and sale based on soy with a long shelf life

Soy-based dietary protein product production

Number of jobs created-14

The investment project implementation period : 2016-2018

Estimated cost of the project : 13.50 million rubles

Project implementation territory : Tomsk, Industrial Park "Tomsk", platform "Berezovaya"

Investor, project initiator : OOO Organik Soya Produkt

3

4

Investment Projects of Tomsk Region to Be Implemented in Industrial Park "Tomsk"

5

Production development for wild raw materials processing

Pine nut kernel processing and oil and cake production - 20 tons per month

The investment project implementation period : 2017-2019

Number of jobs created-5

Estimated cost of the project : 14.00 million rubles

Project implementation territory

: Tomsk, Industrial Park "Tomsk", platform "Berezovaya"

Investor, project initiator

: OOO Sibirsky orekh

6

Confectionery factory construction

Ecologically pure product production from natural raw materials, mainly from Siberian wild plants under the brand "Sibirskie Afiny":

- sweet preservation
- confectionery
- processed wild plants
- sports high-protein products

The investment project implementation period : 2018-2024

Estimated cost of the project : 90.00 million rubles

Number of jobs created-70

Project implementation territory

: Tomsk, Industrial Park "Tomsk", platform "Berezovaya"

Investor, project initiator

: OOO Ecofood

Investment Projects of Tomsk Region To Be Implemented in Industrial Park "Tomsk"

7

Polysaccharide simple ethers production for the oil industry needs and other national economy areas

New production creation of high-quality cellulose ether grades

The investment project implementation period : 2018-2021

Number of jobs created-50

Estimated cost of the project : 230.00 million rubles

Project implementation territory

: Tomsk, Industrial Park "Tomsk", platform "Severnaya"

Investor, project initiator

: OOO GeoTekhnoNovatsii

8

Plant for the sports equipment production

The creation of the sports equipment production designed for use in sports halls, secondary schools, youth athletic centers and commercial facilities

The investment project implementation period : 2018-2023

Number of jobs created-40

Estimated cost of the project : 88.50 million rubles

Project implementation territory

: Tomsk, Industrial Park "Tomsk", platform "Berezovaya"

Investor, project initiator

: OOO Sportkomplekt

Investment Projects of Tomsk Region to Be Implemented in the Technology-Innovative Special Economic Zone "Tomsk"

1

Shut-off and control valves and their components development and production for pipeline transport

Research and production center creation for the full cycle of design, testing and production of innovative shut-off and control valves and their components for pipeline transport

The investment project implementation period : 2016-2021

Number of jobs created-31

Estimated cost of the project : 115.74 million rubles

Project implementation territory : Tomsk, Technology-Innovative Special Economic Zone
: Tomsk

Investor, project initiator : OOO TREM Innovatsii

2

Digital video solutions development and implementation

Development and implementation of a software package for modern video devices, data transmission and acquisition systems meeting the requirements and standards of a particular vendor and provider

The investment project implementation period : 2012-2022

Number of jobs created-14

Estimated cost of the project : 73.04 million rubles

Project implementation territory : Tomsk, Technology-Innovative Special Economic Zone
: Tomsk

Investor, project initiator : OOO VEG

3

Software creation, industrial production, implementation and maintenance

Software creation, industrial production, implementation and maintenance for medical organizations business processes automation

The investment project implementation period : 2008-2025

Number of jobs created-22

Estimated cost of the project : 155.96 million rubles

Project implementation territory : Tomsk, Technology-Innovative Special Economic Zone
: Tomsk

Investor, project initiator : OOO Elecard-Med

Investment Projects of Tomsk Region To Be Implemented in the Technology-Innovative Special Economic Zone "Tomsk"

4

Development, production and implementation of video analysis and editing software with support for H.265/HEVC

Software creation in the field of digital audio and video, multimedia solutions. The current product line development with support for the video coding standard H.265/HEVC, allowing to broadcast video with a resolution of twice the available data channels

Number of jobs created-12

The investment project implementation period : 2011-2021

Estimated cost of the project : 55.00 million rubles

Project implementation territory : Tomsk, Technology-Innovative Special Economic Zone
: Tomsk

Investor, project initiator : OOO Solveig Multimedia

5

Development, production, implementation and maintenance of motherboards line and components for data storage systems "KEYSTONE"

Development of software and information environment for KSTN products, which includes the basic Assembly of the operating system, driver kits, development environment and translation. The software will be part of the KSTN product line and will be used as part of servers and storage systems

Number of jobs created-17

The investment project implementation period : 2016-2021

Estimated cost of the project : 41.32 million rubles

Project implementation territory : Tomsk, Technology-Innovative Special Economic Zone
: Tomsk

Investor, project initiator : OOO INTEC Industrial Systems

Investment Projects of Tomsk Region of Smart Technologies Tomsk Cluster

1

Line of active pharmaceutical ingredients and biopharmaceutical substances

Production of polyprenols, biological substances and medicines based on them, pharmaceutical ingredients, strains of microorganisms, hard and soft gelatin capsules

The investment project implementation period : 2016-2020 гг.

Number of jobs created-70

Estimated cost of the project : 5, 854.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator : OOO Artlife, OOO Solagift, OOO Ifar

2

Technical vision: a line of cross-market products for air, land and sea drones, industrial and educational robotics

Creation and implementation of a technological platform for build in machine vision with various application fields: for unmanned transport control, for industrial machines robotization and production automation, for education in order to develop programming skills of robots with technical vision

The investment project implementation period : 2016-2020

Number of jobs created-120

Estimated cost of the project : 1, 360.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator : The Group of Companies Elecard, OOO NPP TEK, OOO NTP Semantika

Investment Projects of Tomsk Region of Smart Technologies Tomsk Cluster

3

Multifunctional information and communication systems for regions with extreme climatic conditions

IKIS "Intellectual point of production" development and implementation hardware-software complex of remote monitoring of person health status, "Mobilehealth-products" sensors and apps for health monitoring

Number of jobs created-200

The investment project implementation period : 2016-2020

Estimated cost of the project : 1, 493.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator :
• OAO NPF Mikran, JSC EleSi, Group of Companies Elecard, OOO Center of Corporate Medicine

4

Robotic systems and educational robotics, including local navigation systems, distributed drive control systems, data exchange systems, intelligent servos and touch environments

Development and implementation of integrative hardware-software components and platforms for the construction of robotic systems and complexes

Number of jobs created-200

The investment project implementation period : 2016-2020

Estimated cost of the project : 2, 785.00 million rubles

Project implementation territory : Tomsk

Investor, project initiator :
• OAO EleSi, OOO Inkom, OOO NPF Mekhatronika-Pro, OOO LEMZ-T
